DETAILED ACTION

Specification

1. The following guidelines illustrate the preferred layout and content for patent applications. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

The following order or arrangement is preferred in framing the specification and, except for the reference to "Microfiche Appendix" and the drawings, each of the lettered items should appear in upper case, without underlining or bold type, as section headings. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) Title of the Invention.
- (b) Cross-References to Related Applications.
- (c) Statement Regarding Federally Sponsored Research or Development.
- (d) Reference to a "Microfiche Appendix" (see 37 CFR 1.96).
- (e) Background of the Invention.
 - 1. Field of the Invention.
 - 2. Description of the Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (f) Brief Summary of the Invention.
- (g) Brief Description of the Several Views of the Drawing(s).
- (h) Detailed Description of the Invention.
- (i) Claim or Claims (commencing on a separate sheet).
- (j) Abstract of the Disclosure (commencing on a separate sheet).
- (k) Drawings.
- (l) Sequence Listing (see 37 CFR 1.821-1.825).

Claim Rejections - 35 USC § 112

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the following phrases lack antecedent basis: "the shape", line 1 and "the object" line 2.

Art Unit: 3628

In claim 1, the following alternative phrase is indefinite because the elements are not obvious equivalence: "the object... can be in the form of an inscription or picture or three dimensional object or running inscription or mobile picture or mobile three-dimension object".

In claim 1, the applicant does not claim structure to support the cylinder's ability to rotate at high angular velocity.

In claim 2, lines 6-7, the phrase "the transparent slot" lacks antecedent basis.

In claim 1 and 4, it is unclear if the applicant is positively claiming the two dimensional object or the three-dimensional object.

In claim 5, it is unclear if the transparent slot is the same as the transparent slot recited in claim 1.

In claim 5, the following phrases lack antecedent basis: "the dark non-shiny tube", "the cover"; "the rotating elements"; "the boreholes"; "the static part"; "the plate"; "the electric system"; "the base"; and "the protective transparent tube".

In claim 5, line 5, the phrase "other internal elements" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "other internal elements"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

In claim 6, the following phrases lack antecedent basis: "the object"; "the angle (α_2)"; "the first column"; "the angle (α_n)"; "the angle (α_1)"; "the second column"; and "the original direction".

Art Unit: 3628

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Guerra, Italian Patent 501,388. Guerra teaches a display comprising cylindrical member 3 having a slot 2; and picture/display 5 disposed inside the cylindrical member, and a motor 4 adapted to rotate the member 3.

Allowable Subject Matter

5. Claims 3-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claim 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
